Pravin Gupta Procto-Gun

Pravin Gupta Procto-Gun handpiece is designed to offer ano-rectal surgeons a non-invasive treatment. Utilizing high frequency radiowave technology (ellman Dual Surgitron 4.0MHz) provides a safe and efficient alternative to electrosurgery.

The **Pravin Gupta Procto-Gun** handpiece also accommodates a wide selection of electrodes for added versatility and surgical precision.

ADVANTAGES

- Can easily work through anoscope
- Contoured handle affords surgeon greater control and precision
- Better visibility of the depth of anal canal and lower rectum
- Gives a tactile feeling of the tissue with better stability than the usual pen handle

INDICATIONS

- Submucous anal canal abscess
- Submucous anal canal granulomas
- Sentinel tags
- Anal and rectal polyps
- Intra-anal warts
- Hemorrhoids
- Hypertrophied anal papillae
- Fibrous anal polyp
- Biopsy from the anal canal and rectum
